PERSONAL STATEMENT

As a software developer, I am passionate about creating innovative and user-friendly web applications. I have a strong foundation in frontend development and specialize in JavaScript, TypeScript and ReactJS. With over a year of experience in building web applications, I have valuable insights from collaborating within teams and navigating the software development life-cycle. My goal is to contribute to a dynamic team where I can continue learning and honing my skills while making a meaningful impact to the growth and success of the organization.

EDUCATION AND CERTIFICATIONS

React 18 Tutorial and Projects Course
Udemy   2023

JavaScript Tutorial and Projects Course
Udemy   2023

B.A Mass Communication (GPA 4.3)
University of Nigeria, Nsukka   2022

TECHNICAL SKILLS

HTML5, CSS3, JavaScript ES5/ES6, Typescript, SCSS, Chakra UI, NextJS, ReactJS, Redux and Git.

PROFESSIONAL EXPERIENCE

PEIGES   Lagos, Nigeria.
Frontend Developer Intern   August 2023 - present

Company Overview:

Peiges is a professional portfolio builder platform designed to help users showcase their work, skills, and achievements in a visually appealing and accessible manner.

As a Frontend Developer Intern, I am responsible for the timely delivery of essential tasks pertaining to the website development. I coordinate with the UI Designer, Product Manager and Backend Engineer to build responsive user interfaces and functionality. Responsibilities and achievements include:

• Translating UI designs into responsive and cross-browser compatible web pages using HTML5, Chakra UI, and React Typescript.
• Using best coding practices, suitable data structures and algorithms to solve problems, resulting in the creation of clean and readable code.
• Conducting comprehensive testing and code reviews to identify and rectify software bugs, thereby improving the overall stability and functionality of the applications.
• Integrating RESTful APIs into the frontend architecture for sending and receiving data.
• Implementing asynchronous coding patterns to optimize website performance, resulting in faster load times and improved user experience.
• Implementing strong user and password validation mechanisms to ensure the security of authentication pages and safeguard user data.
• Utilizing Git for version control, managing code repositories, and collaborating with team members.
• Completed tasks promptly to ensure project deadlines were met and successfully launched the project ahead of schedule.

PERSONAL PROJECTS

E-commerce website: https://catherine-anokwuru.github.io/nativity/
• Designed and developed an e-commerce web application using HTML, SCSS and JavaScript.

Company Website for SafeMain Integrated Services Limited: https://safemain.com.ng/
• Designed and developed a professional website using ReactJS and EmailJS.
• Successfully deployed the application on a cPanel-based website, configuring the hosting environment securely and efficiently.
